

GET GAP.

DRIVE ON.

DO YOU REALLY NEED GAP COVERAGE?

The market value of your new vehicle starts to decrease the moment you take possession.

Example for illustration purposes only.

At some point, you may owe more money than your vehicle is worth.

Whether you are upside down in your financing, or just purchased a new vehicle, you may be at risk for future financial loss.

If your vehicle is declared a total loss from an accident, or stolen and unrecovered, your primary auto insurance may only reimburse you for the actual market value of the vehicle. Unfortunately, the reimbursement amount you receive could be substantially less than your vehicle's remaining Unpaid Net Balance.

GUARANTEED ASSET PROTECTION HELPS BRIDGE THE "GAP" BETWEEN YOUR INSURANCE REIMBURSEMENT & YOUR VEHICLE'S UNPAID NET BALANCE

A GAP waiver may not waive the entire Unpaid Net Balance.

DON'T RISK IT

Each and every year, millions of vehicles are totaled due to crashes and natural disasters.²

A motor vehicle theft occurs every 35.9 seconds in the U.S.³

WHAT GAP OFFERS

- Coverage for new and pre-owned vehicles
- Coverage for installment contracts, loans & leases⁴

HOW GAP PROTECTS

- Helps protect your credit rating
- May cover your insurance deductible¹
- Potentially saves you thousands of dollars

Maximum waiver benefit may vary by lender and state. Please see your GAP Waiver Addendum for details.

1. Depending on your state's law, your GAP Waiver Addendum may cover up to \$1,000 of your Property & Casualty Insurance Deductible. If you are unsure of your state's guidelines, please consult your dealer.
2. Consumer Federation of America.
3. National Insurance Crime Bureau, "2020 Hot Spots" report at nicb.org.
4. Types of available financing may vary by lender and state. Please see your GAP Waiver Addendum for details.
